

Antony and Cleopatra Review

04/02/2019

If you like your Shakespeare with a twist, The Scullions' production of *Antony and Cleopatra* is sure to please. The tragic story is re-imagined for the roaring 20's, where the decadent party lifestyle proves a compelling setting for the "Queen of the Nile" and her love of the dangerous Mark Antony. The actors are all committed and work well as an ensemble, with strong performances from the cast - who take on multiple roles - keeping the audience engaged and entertained. The Mission Theatre is also an excellent venue for the performance, allowing the audience to feel that they too are invited to the party, as they bear witness to the criminal workings of prohibition America that will ultimately prove the downfall of all.
